PROFESSIONAL SUMMARY

B.Tech Information Technology graduate with Honours in Data Science and hands-on experience developing full-stack applications, REST APIs, database-backed systems, and AI-powered automation. Skilled in Python, FastAPI, React, PostgreSQL, and n8n, with experience integrating AI assistants and workflow automation. Seeking a Full Stack Developer or Software Developer role to build reliable, user-focused solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Responsive Web Design
Backend & APIs: Python, FastAPI, Node.js, REST APIs, Authentication, CRUD Operations
Databases: SQL, PostgreSQL, SQLAlchemy, Firebase Realtime Database
Tools & Platforms: Git, GitHub, VS Code, Netlify, Vercel, Render, Excel, Power BI, n8n, Docker
AI Development: RAG, PDF Processing, Chroma, LLM API Integration

PROJECTS

• **AUREX AI — Full-Stack AI Assistant**
Technologies: React, TypeScript, FastAPI, PostgreSQL, Chroma, Groq API
– Built a full-stack AI assistant with user authentication and persistent conversation history.
– Implemented PDF upload and document management to support question answering over user-provided files.
– Integrated Retrieval-Augmented Generation (RAG) with Chroma and an LLM API to retrieve relevant document context for responses.
– Designed responses with source references, including page numbers and excerpts, to help users verify answers.

• **AI Office Assistant — n8n Automation**
Technologies: n8n, OpenRouter, Google Drive, Gmail, Docker
– Created an AI-powered workflow to classify employee messages into Leave, IT Support, Payroll, HR, or Other categories.
– Configured LLM-based classification and routing logic to direct requests toward the appropriate handling path.
– Prepared notification email content that includes the original employee message and suggested next steps for the manager.
– Used connected services and Docker-based local setup to develop and test the automation workflow.

• **LeaveFlow — Leave Management System**
Technologies: HTML, CSS, JavaScript, FastAPI, SQLAlchemy, PostgreSQL
– Developed an employee leave portal with authentication, leave applications, leave history, and dashboard summaries.
– Implemented leave-balance tracking, including total, taken, and remaining leave information.
– Added validation to prevent end dates from preceding start dates and to check leave balance before submission.
– Built manager workflows to view pending requests and approve or reject applications; included calendar status indicators for approved, pending, rejected, and holidays.

• **TN Bus Tracker & Management System**
Technologies: HTML5, CSS3, JavaScript, Java, MySQL, Firebase, Google Maps API
– Developed a web and mobile bus tracking concept with map-based location viewing and transport management features.
– Integrated Firebase Realtime Database to support live data updates for tracking-related information.
– Used map interfaces to present bus locations and make route information easier to understand.
– Included bus and driver management functionality to support day-to-day transport administration.
Project link: tn-tracker.netlify.app/

• **FlyBird — Flying Bird Game**
Technologies: React, TypeScript, HTML, CSS
– Built a responsive browser game with keyboard and touch controls for desktop and mobile play.
– Implemented bird and background selection, progressive levels, and increasing difficulty to extend replayability.
– Added collectible gems and life-recovery mechanics as gameplay rewards and recovery options.
– Configured movement, gravity, jump behavior, and obstacle movement to create a continuous arcade-style challenge.

INTERNSHIP EXPERIENCE

Reflections Info Systems Pvt. Ltd. — Full Stack Development Intern | Aug 31, 2026 – Present
Working on full-stack development and AI assistant applications, applying frontend, backend, API integration, and database concepts.
CodeBind Technologies — Web Development Intern | 2 weeks, offline
Created responsive web pages and gained practical experience with web development fundamentals.

EDUCATION

B.Tech — Information Technology (Honours in Data Science) | 2022–2026
St. Xavier's Catholic College of Engineering (Affiliated to Anna University) | **CGPA: 8.3**
HSC — Higher Secondary | 2020–2022
St. Mary's Matric Higher Secondary School | **Percentage: 79.33%**
SSLC — Tamil Nadu State Board | 2020
APJM Matric Higher Secondary School | **Percentage: 83.8%**

CERTIFICATIONS

• Python Course — Udemy
• n8n Automation — Udemy
